Training and test modules

Patron offers training for drivers in scenarios with various levels of difficulty, which can be further modified, and allows the verification of skill level with the help of simulated tests for Categories C and CE.

Basic manoeuvres - Level I

Basic manoeuvring:

Scenario for preparing the trainee for simulator training.

Free ride - square:

Free ride for learning about the physics of the vehicle and its dimensions.

Basic manoeuvres - Level II

Driving forward and backwards between lines:

This scenario teaches the basics of reversing with a trailer.

Zigzag forward and figure of eight:

Both scenarios show the trainee the trailer's trajectory.

Driving forward and backwards in a curve:

A scenario with increased difficulty.

Parking

Angled forward parking to the left and perpendicular forward parking to the right:

A scenario where the trainee performs a task that every driver does several times a day.

Improving driving skills

In these scenarios, the trainee drives in urban areas – outside of urban areas and in urban traffic – performing tasks that will prepare them for the work of a professional driver.

Logistics Centre

A set of exercises aimed at preparing the trainee to perform the toughest tasks (i.e. approaching the loading dock in every possible configuration

Perpendicular approach to a dock from the left side

Perpendicular approach to a dock from the right side

Angled approach to a dock from the left side

Angled approach to a dock from the right side

Test - Category C

A complete test for a Category C driving licence, in accordance with the applicable law, including the following manoeuvres:

Driving in a curve forward and backward

Angled parking

Perpendicular forward parking

Perpendicular reverse parking

Parallel parking

Hill start

Test - Category CE

A complete test for a Category CE driving licence, in accordance with the applicable law, including the following manoeuvres:

Driving in a curve forward and backward

Angled parking

Perpendicular forward parking

Perpendicular reverse parking

Parallel parking

Hill start
